A Bavaria, Austria and Switzerland one of the most popular types of brothers overall. There are probably very few who have never eaten a delicious liver cup in their life. Of course, the veggie & co faction. No seriously, liver cheese is simply cult. So it will also be a car and create our own liver version of our own liver version, and the mountain farmers Leberkas ðÿ show why is the liver cheese over at all? Hmmm â € “Do you know why the liver chicken is called liver chicken? Although there is no liver overall and there is no cheese (at least in this reason)? I quickly found that out for you. Inoltre: In Bavaria, people often say to a compact edible mass â € ŽKASAS. We have already had part 2 of the word liver cheese, since â € Žkasâ € stands for â € Žkäseâ €. The classic liver chicken is almost always baked in a box -like shape era as a loaf (bread) looks like a loaf. From this â € Žlaib Käseâ €, the different dialects and susceptible speeches of the â € Žleber Kasâ € (High German: Leberkäse). Interesting, right? ðÿ X liver chicken make it yourself? Is that possible at all? Many liver cheese recipes Inizia Cosãze: "You go to the butcher you trust and buy a finished liver chest broke ...". With our recipe here, it is very different: we even make ourselves the brander! It seems that everything is around it (the mixTip does not need to be spent!). Now we put the gulasch defrosted in the bowl and we crushed this at level 10 for about 10 seconds. Then add the mixture for the Bavarian liver chicken and are below for about 15 seconds at level 4. The whole thing seems to be this: now we let the thermomix work at level 4 and add the frozen water. Immediately afterwards it presents 10 for about 20 seconds. Push the remains of the mixing pot (and lid) downwards with the spatula and add the majortan. Mix again at level 10 20 seconds. And again push the remains from the mixing bowl, mix for another 20 seconds at level 10. Now he sets the level from 10 to 30 seconds on Thermomix. In portions, add the pork bacon converted through the EU. With the spatula you should therefore take many things. The broken liver cheese should now appear in the photo below. Then have a relatively uniform color and consistency as a sticky mixture. If not mixed again at level 10 for 20 seconds. So you could cook it. It would therefore be a classic Bavarian liver. But let's make a liver liver liver liver, so now we mix our hand ingredients. For our mountain farmers, the mountain cheese, gained for at least 6 months, has matured -Up (we have finished because all the ingredients should be relatively dry), the nose ham and a Hauch garlic. Finally we will fade the Fanger in a pan. Backe Cheek Kuã ¢ â‚¬ âion leberkã €ada's Epace Breed Now bake or chill and only bake freshly on the next day. We recommend eating these liver chicken variant hot or caldo. Just tastes more hearty if one of the mountain cheese almost goes against it ðÿ ™ 'so off into the oven with it. Bake at 150 degrees for 45 minutes. Then turn up the oven to a good 200 degrees and for about 15-20 minutes bake until the tanning is reached. Our (first) homemade liver mm mh is ready, which a fantastic ski scent is already spreading when baking. Delicious ðÿ flight out of the oven with the noble part and out of the baking dish. Called â € “The mountain cheese runs out slowly and ..... try â €“ delicious ... or as we can say to say voi tasty of these mountain farmers. Consistency is perfect. Schuhn Fest - as with the best butchers (with pizza bead chicks ECC.). In terms of taste, our mountain farmers liver cheese really awesome. Logically, the mountain cheese is very dominat, if you don't like it, other types of cheese can also use, but that's exactly what we wanted. The ham and the frame onions are perfect and the liver cheese A is also top class. I/we are completely enthusiastic. Quindi can easily make his very personal liver cheese. Think already a â € Žmafiosi Leberkaseâ € with dried tomatoes, pepperoni, diverse chilli varieties and capers. Or â € Žhellas Leberkäseâ € with fetacase, olives and a lot of garlic. The possibilities are almost unlimited. Addendum: The mountain farmers are also a pleasure for the mountain farmers! Further impressions of our finished mountain farmer liver faith to make your own liver cheese briefly and felled: Weigh the Machma Moi again ðÿ ™ 'weighing all the gears, mix together and put together aside. Grease the box shape well so that you can get out of the shape of the finished meat cheese well. Now it goes to 200 °. Ice-like in the 3-second/level 5 skin and put the chaos in soft water with mineral water. Now mix all ingredients/manage except mineral water in giving 3-4 minutes. After time with saving, subordinated to mix, so that eventually there is a creamy mass. Attention, the Brander should not be more than 12 ° C. Now I had an infrared thermometer with laser beam purchased, it works wonderfully. Now it encloses the Brander out of the box in the shape of the box or in the liver cheek. When you show up, make sure that there are no air blades in the meat bridge, possibly it touches the form of adaptation several times on the work plane. With the soft spatula and crushes a diamond pattern with a knife tip. Â cooked for 12-15 minutes at 180 ° C, then turn down to 150 ° C. Time depends on the size of the shape. Actually, I would suggest a thermometer for meat, this is inserted in the meat cheese to the center, with a temperature displayed about 70 ° C, the meat cheese is good and can be made by the mold. Leave the taste . taste.
